RELEVANT EXPERIENCE

IDEA Public Schools, Remote

June 2024 – August 2024

Student Information Systems Intern

- Cleaned and updated data for 300+ students using PowerSchool and Excel, ensuring accuracy and reducing post-rollover errors.
- Managed teacher and vacancy additions for IDEA schools in Texas and Louisiana, optimizing staffing and resource allocation.
- Updated a master tracker and performed scheduling audits for 50+ campuses, ensuring operational accuracy.
- Sent reminders and handled inquiries in SIS group chats, updated bell schedules, and set up school calendars to streamline daily operations.

Texas Pre-Freshman Engineering Program - TexPREP, Edinburg, TX

June 2023 – July 2023

Summer Program Mentor

- Mentored a cohort of 15 students over a 7-week program focused on Engineering and Computer Science.
- Managed attendance, actively participated in classes and labs, and provided valuable support to instructors.
- Engaged directly with students during academic activities, offering guidance and assistance.
- Oversaw research and study periods, maintaining meticulous records of student progress and work.

University of Texas-Rio Grande Valley, Edinburg, TX

September 2021 - September 2022

WS Student Assistant

- Worked in Undergraduate Admissions.
- Organized and managed data using Excel.
- Inputted and maintained student information, including AP, TSI, ACT, and SAT scores, ensuring accurate and up-to-date records.
- Reviewed and resolved discrepancies in student data, enhancing data quality and integrity.

SELECT SOFTWARE PROJECTS

Song Searcher | EJS, SQL, JavaScript, HTML, CSS

December 2023 – March 2024

- Developed a dynamic webpage using Bootstrap to showcase Sade's discography, featuring an interactive interface for exploring albums, viewing song details, and implementing a search feature for finding songs by partial lyrics, while collaborating on backend data integration for seamless database functionality.

LEADERSHIP EXPERIENCE

Break Through Tech, Fellow

May 2024 - Present

Selected from 3000+ applicants for the Break Through Tech AI Program at Cornell Tech.

- Participant in 12-month long program including Machine Learning Coursework with Cornell faculty, experiential learning experiences, and mentorship from industry professionals.
